**Subject:** Today's ops

Good morning again,

Since we received the segment data late yesterday, the plan for today will be as follows

Property 1

T&D

Move segment from DD-03 over to disposal pile. I would like to move this OVER the berm rather than going onto the truck road. It doesn't matter if we track through the water in DD-03, it's all contaminated

Property 2

Mix segment which was finished yesterday ( I think this is 13-2)

Move cleared segment

I have to confirm segment numbers with [Nonresponsive based on revised scope] this morning

Thanks

Chris
